1- STERN PLATFORMS

All the boats are equipped with GRP stern swim platforms and a stainless-steel telescopic ladder which neatly folds away in a recess when not in use.

2- ADAPTABLE AFT AREA

The backrest on the driving position of the 630 EMOTION and 730 EMOTION can be tilted forward to give the driver the option of steering in a slightly higher position. The stern seating makes for a friendly area when guests are aboard.

3- GRP BOW MOULDING

This practical bow feature has an integrated stainless steel cleat and rope holder for anchoring or docking. Another thoughtful feature from a versatile range.

TECHNICAL CHARACTERISTICS
